

SKIN BY SARAH

Light Eyes

What is Light Eyes?

Light eyes is a special cocktail containing hyaluronic acid, ruscoides, vitamin C and antioxidants able to improve microcirculation, cutaneous elasticity and drainage in the periocular area.

This treatment will brighten up the eye area and increase the circulation. So you'll achieve a more youthful and rested look. It is injected via very fine needles into several points around the eyes and then dissipates into the tissue.

How does it work?

Light Eyes is injected using very fine needles and only a slight scratch can be felt. The procedure takes only a few minutes once the consultation has been carried out. Most customers are very comfortable having this treatment.

What can Light Eyes treatment help with?

Light eyes ultra is especially designed for treatment of the skin tissue around the eye.

The main indications for the treatment include

- Swelling/ bags above and below the eyes
- Dark circles - especially under the eyes
- Dry skin and small wrinkles prematurely appearing in early 30's
- Loss of tissue elasticity

When will I see results?

You will need 1 session every 15 days for 4 - 8 weeks to see best results. We then recommend 1 top up session every 3 months to maintain your results.

What are the side effects/risks/warnings?

Light Eyes Ultra is a very safe treatment. The compounds in the cocktail are natural, very biocompatible and will break down in the skin after a period of time. If you have an allergy to Hyaluronic Acid products, or are breastfeeding or pregnant, you should avoid this type of treatment.

What aftercare should I follow?

- Avoid makeup for 24hrs
- Avoid touching, rubbing or massaging the treated area for 48hrs
- Ensure to keep the treated area clean

How much downtime is usually needed?

This treatment can have 1-2 days downtime, some clients may experience mild temporary swelling which should settle after 24hrs, mild bruising may also be present in some cases however this should resolve in around 5-7 days.
